

ECMC Annual Network Meeting

Thursday 23 May 2019

America Square – Cavendish Venues, One America Square, 17 Crosswall, London,
EC3N 2LB

Parallel session 2: Innovation in clinical trial operations
Chair: Steve Nabarro, CRUK

This session will showcase examples of innovation being used across the ECMC network. Looking at how innovative technology and processes are helping to speed up the delivery of early phase trials across the UK, facilitating improved patient interaction and encouraging learning and sharing of best practice

AGENDA

| Time | Topic | Speaker |
|---------------|---|---|
| 14.00 – 14.05 | Chair introduction | Steve Nabarro, Cancer Research UK |
| 14.05 – 14.30 | Flexible Early Phase Adaptive Designs: Better than a Robot Vacuum | Christina Yap, Birmingham |
| 14.30 – 15.00 | How both site and sponsor must adapt to maximise the use of innovative technology and innovative processes | Steve Nabarro, Cancer Research UK and Bindu Rao Baikady & Praradchaya Lamb, ICR |
| 15.00 – 15.15 | Refreshment Break | |
| 15.15 – 15.45 | The Digital Experimental Cancer Medicine Team (dECMT): Changing the conduct and interpretation of clinical trials | Paul O'Regan, Manchester |
| 15.45 – 16.10 | Experimental Cancer Trial Finder – a new tool for the ECMC network | Siru Virtanen, ECMC Programme Office |
| 16.10 – 16.15 | Close of meeting | Steve Nabarro, Cancer Research UK |
| 16.15 | Drinks reception | |
